Austin, Texas 78701

Dear Mr. Campos,

Thank you for the discussion on the regarding CAMPO's submittal of FM 973 for the February revision. As follow up on the conversation, I wanted to confirm that that the "continuous turn-lane" included in the project description is a center left-turn lane per the TxDOT-Austin District. In the future, we will be sure to include additional descriptors such as this to more adequately describe project attributes.

As always, I really appreciated the conversation; please let me know if you have any additional questions regarding this submittal.

Sincerely,

A handwritten signature in black ink that reads "Ryan C. Collins". The signature is fluid and cursive, with the first name "Ryan" and last name "Collins" clearly legible.

Ryan Collins  
Short-Range Planning Manager
